## Terminals and Solutions

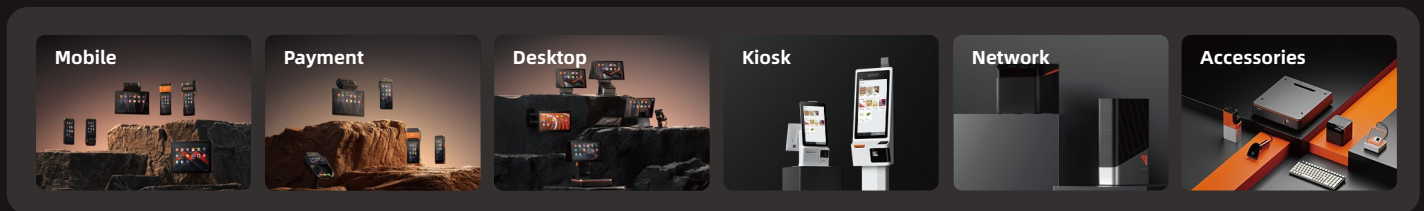

# About SUNMI

SUNMI is leading the move to Android for business digitization solutions through attractive business IoT devices and End-to-End platform. We have more than 15 overseas branches spreading across five core regions: Asia-Pacific, Europe, North America, Latin America, Middle East and Africa.

## SUNMI IoT Product Ecosystem

### SUNMI Business IoT Products

SUNMI has rolled out a wide range of IoT products created for the retail, restaurant, financial, healthcare, and the public sector among other sectors.

### SUNMI End-To-End Platform

SUNMI's value proposition is not only attractive devices. It is an End-To-End Platform and a full ecosystem. Manage your device fleet, keys and contents. And reduce your costs.

#### SUNMI OS 4.0 (SUNMI Business Operating System)

SUNMI OS acts as a hardware abstraction layer over the entire SUNMI device portfolio to enhance user and customer experience.

- Business UI
- System App
- SDK
- One ID
- Security Engine

#### SUNMI DMP (SUNMI Device Management Platform)

- Global Cloud
- Local Cloud
- Private Cloud
- Remote Assistance
- OTA
- App Distribution
- POS Steward

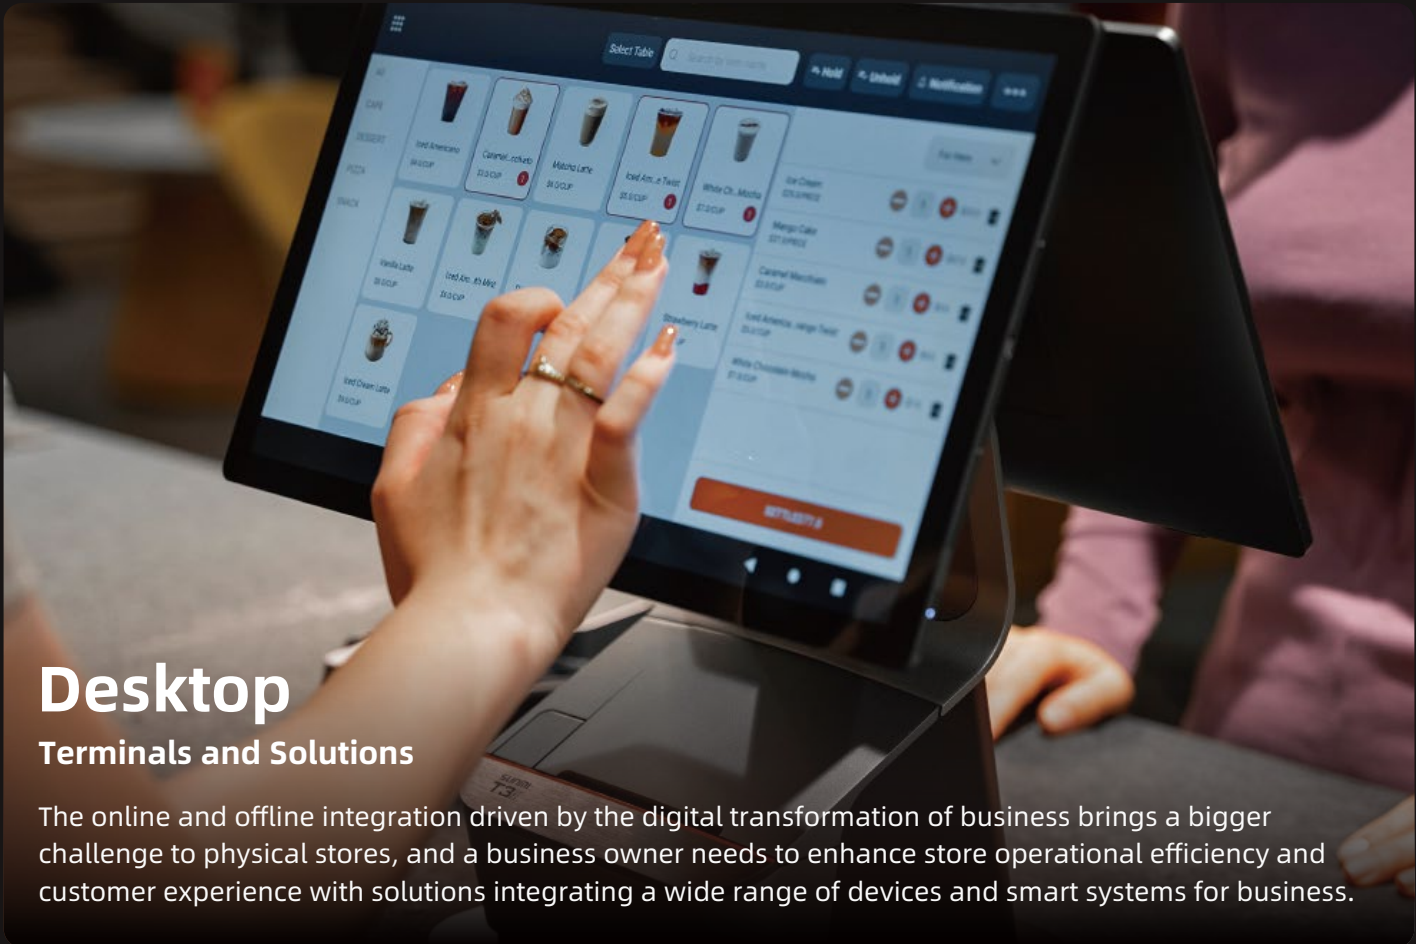

### SUNMI APP STORE (SUNMI Advanced Application Management)

Secured, Flexible and Economical. Publish your apps and build your customized App Store.

### Business Solutions for All Industries

Together with partners around the world, SUNMI creates digital solutions for businesses including retail, F&B, finance, logistics, public services, transportation, and more.

# Desktop

## Terminals and Solutions

The online and offline integration driven by the digital transformation of business brings a bigger challenge to physical stores, and a business owner needs to enhance store operational efficiency and customer experience with solutions integrating a wide range of devices and smart systems for business.

### T Series

Smart Desktop Terminal

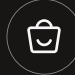

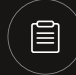

Employing high-performance processors, SUNMI T Series have obtained several international design awards, thus being a top choice for merchants pursuing excellent performance.

-   
**Checkout**
-   
**Self-checkout**
-   
**Queue Management**
-   
**Receipt Printing**
-   
**Reservation Receipt Printing**

### D Series

Smart Desktop Terminal

SUNMI D Series is specially designed for those who run start-ups, those who pursue goals without compromises. It integrates the unique SUNMI design DNA and professional performance to meet a store's daily operation needs.

-   
**Checkout**
-   
**Item Management**
-   
**Queue Management**
-   
**Order Taking**
-   
**Reservation Receipt Printing**

### S Series

Smart Scale Terminal

Integrating weighing, checkout and printing in one device, SUNMI S Series answers to the high requirements on efficiency driven by New Retail. Its user-friendly UI also adds convenience for self-service weighing.

-   
**Self-weighing**
-   
**Self-checkout**
-   
**Receipt Printing**

# SUNMI T3 PRO MAX New

The next level of Android desktop.

reddot winner 2024

## Flagship performance unlocks extraordinary user experience.

High performance octa-core 6nm processor, up to 2.7Ghz. Equipped with large-capacity memory of 6GB RAM+128GB ROM to deliver premium-tier features.

## Pioneering in engineering.

The sleek yet durable aluminum alloy design strikes the perfect balance between weight, ruggedness and appearance. The bezel-less high definition display comes with a high-transparency anti-fingerprint coating.

## Interactive design for an ultimate user perception.

Designed with NFC tap on screen for both the main screen and customer facing screen (optional). Easily detachable customer display that comes with a 1.5m extension cord to improve flexibility.

## Have your device tailored to your brand.

Apply your logo and brand color to the device to show your brand personality.

## A modular design with an internal high-speed 80mm Seiko printer.

Navigate your rush hours like a pro with quick printing. The printhead is easy to remove and install, greatly cutting your maintenance cost.

# SUNMI T2s

Pursuit of excellence, performance breakthrough.

## Performance Breakthroughs At Your Fingertips

High performance octa-core processor, up to 2.2Ghz.  
Equipped with large-capacity memory of 4GB RAM+64GB ROM,  
T2s allows you to experience unparalleled operation smoothness.

## Unique Printing Technology

T2s adopts an 80mm thermal printer with a print speed up to 250mm/s, which has employed SUNMI's unique printing technology to smooth your printing.

## Anti-interference Touch Screen

To realize your demand on worry-free dual-display interaction, we employ an industrial-grade touch chip which is more resistant to EMI. You can feel free to use T2s even near high-power devices.

## Optional Accessory

### NFC & MSR Card Reader

For NFC card reading and magnetic stripe card reading.

# SUNMI T2s LITE

Flexible forms bring abundant experience.

## Performance Breakthroughs At Your Fingertips

High performance octa-core processor, up to 2.2Ghz.  
Equipped with large-capacity memory of 4GB RAM+64GB ROM,  
T2s LITE allows you to experience unparalleled operation smoothness.

## Anti-interference Touch Screen

To realize your demand on worry-free touch experience in various environments, even near high-power devices, we employ an industrial-grade touch chip which is more resistant to EMI.

## Unlock More Possibilities With A VESA Mount

T2s LITE can be mounted with a VESA mount, enabling more applicable scenarios. For example, it can be used as a kitchen display of a KDS, greatly improving the restaurant operational efficiency.

## Optional Accessories

**NFC & MSR Card Reader**  
For NFC card reading and magnetic stripe card reading.

**VESA Mount**  
For more space-saving installation and more flexible use.

# SUNMI D3 MINI New

Compact, loaded with features.

reddot winner 2024

58mm version/80mm version

## MINI in size, powerful inside.

Speed up your operations with the Qualcomm hexa-core processor, 3GB RAM+32GB ROM. Quick response and cache loading thanks to the high read and write speed of UFS 2.2. 58mm version comes with a built-in battery that features 4-hour runtime.

\*Data from SUNMI Lab.

## Visually appealing, incorporating ergonomics.

D3 MINI is small in size, light in weight and comes with a 10.1 inch screen and save more space. Its ergonomically inclined main screen is also designed for better user experience.

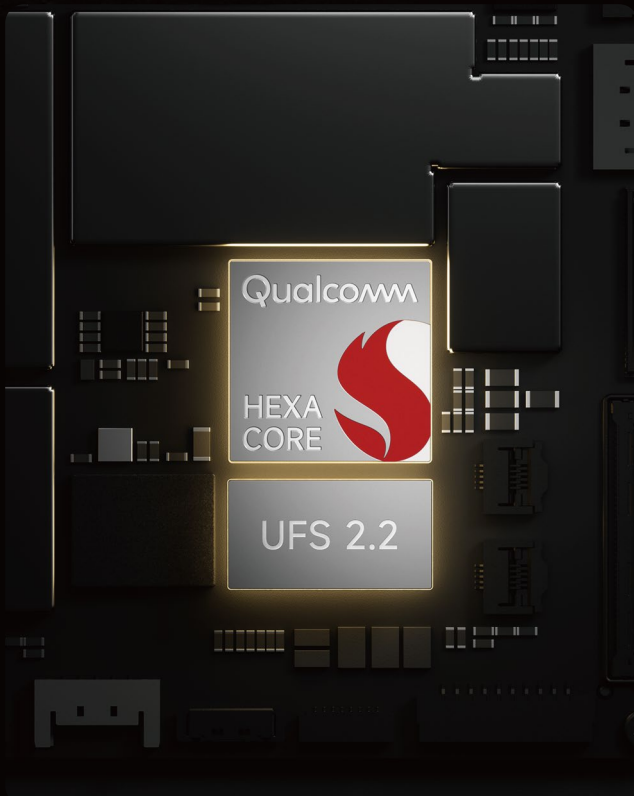

\*The degree varies on the 80mm version due to the different printer size.

## Reliability and convenience by design.

Easy to remove and maintain with the modular design. Rubber seals added to protect the printer from dust, liquid among other foreign objects.

## Have your device tailored to your brand.

Apply your logo and brand color to the device to show your brand personality.

Smart Desktop Terminal

# SUNMI D2s PLUS COMBO

A one-stop choice for your retail checkout.

## A More Powerful Printer Inside

A desktop terminal that prints at 250mm/s\* definitely will be your great helper at peak hours. The 80mm wide receipts give you more room for your creative ideas that show your brand personality, no matter by long texts or images, or combined.

## A Cash Drawer And A Keyboard Included

Customize your function keys on the 89-key POS keyboard to speed up your checkout. A cash drawer also was built in the COMBO for your cash payment businesses.

## A Printer That "Feels" Smooths Your Business Operations

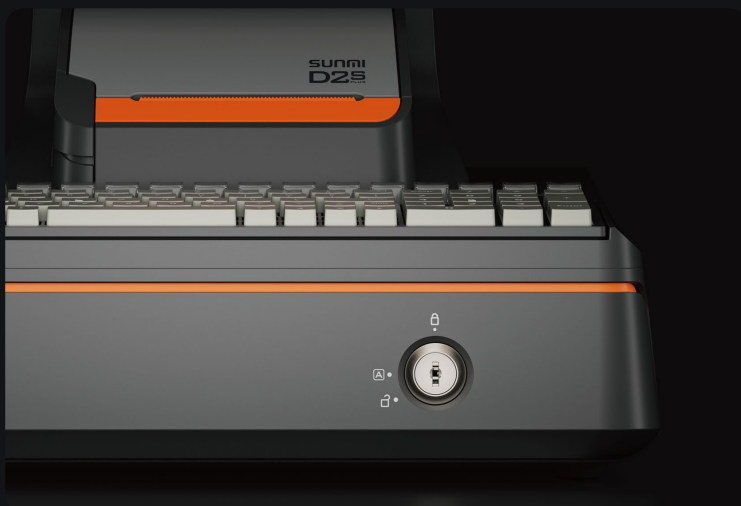

The newly added sensors for paper jam, paper pickup, out of paper and overheated motor can effectively protect the printer and also delivers smooth receipt printing experience.

## More Configuration Options

Three display options. Find what combination works best for you.

Smart Desktop Terminal

# SUNMI D2s PLUS

Better printing performance, and more.

## A More Powerful Printer Inside

A desktop terminal that prints at 250mm/s\* definitely will be your great helper at peak hours. The 80mm wide receipts give you more room for your creative ideas that show your brand personality, no matter by long texts or images, or combined.

## A Printer That "Feels" Smooths Your Business Operations

The newly added sensors for paper jam, paper pickup, out of paper and overheated motor can effectively protect the printer and also delivers smooth receipt printing experience.

## More Configuration Options

Three display options. Find what combination works best for you.

## Display Options

15.6"

Smart Desktop Terminal

# SUNMI D2s KDS Kitchen Display System

Streamline your kitchen operations for improved customer satisfaction.

## Boosted BOH Efficiency

Go paperless and boost your restaurant BOH efficiency with SUNMI D2s KDS. Orders taken in the front of the house (FOH) will be directly sent to the back of the house (BOH) KDS screens. No more wrong or lost orders, and higher efficiency.

## Touch, And Done

Simply check tickets on the 15.6" FHD capacitive multi-touch screen and tap to change ticket status, with a wet hand or a gloved hand.

## Sealing Protection

With a sealed enclosure, D2s KDS is IP55 waterproof and easily cleanable. It is perfectly designed for hot, humid and greasy kitchen environments.

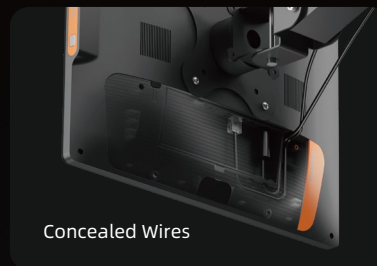

## Painless Installation, Easy Operations

VESA mount compatible. Wall-mounted, pole-mounted, arm mounted, your kitchen, your choice.

You can set D2s KDS to auto start once connected to a power supply.

Power over Ethernet\*. Reduce cabling needs by connecting to network and power the device with one cable.

Vertical or horizontal. Orient the KDS screen to suit your kitchen.

Concealed Wires

Rounded Corners

\*POE Switch is required

## Smart Interactive Terminal

# SUNMI FT2 New

Flexible and versatile, designed for seamless interactions.

Powered by  
**SUNMI OS**

Compatible with  
**SUNMI DMP**

### Compact, yet Versatile

A barcode reader, a card reader, and a facial recognition module are all integrated into this 14mm slim profile terminal that comes with a 10" high-resolution display. Less room used, more possibilities to embrace.

### Built for High Performance

Equipped with an octa-core high performance processor and 2G RAM+32G ROM memory, FT2 delivers smooth operations and supports barcode reading, etc. Wi-Fi, wired and 4G connectivity are also supported.

### Durable and Resistant

Industrial touch screen that supports wet-hand and glove touch.

\*IP54: water-, dust-, bug- and fire-proof to stand real world challenges and save your maintenance costs.

\*Data comes from SUNMI Lab.

### Install the Way You Need

Install FT2 with an easy to install and remove wall mount/desktop stand/desktop multi-angle support to fit your business.

Smart Desktop Terminal

# SUNMI S2 New

One device for weighing, checkout and printing.

## Professional

The suspended aluminum die-cast scale, coupled with a patented electronic level bubble, guarantees unparalleled precision in your weighing tasks/endeavors.

## Flexible

Two display configurations are available: a primary touch display of 15.6 inches alongside either a secondary display of the same size or a smaller 10.1-inch alternative.

## Convenient

The built-in 80mm Seiko thermal printer prints quickly at 250mm/s, providing a receipt for each transaction for easy tracking.

# SUNMI OS 4.0

Smooth, simple, secure.  
Born for business, better in experience.

## SUNMI OS 4.0 (SUNMI Business Operating System)

SUNMI OS acts as a Hardware abstraction layer over the entire SUNMI device portfolio to enhance user and customer experience.

Business UI

System App

SDK

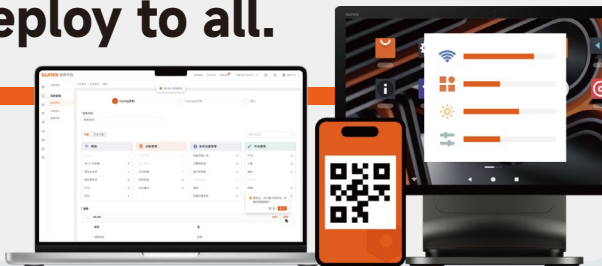

One ID

Security Engine

Configure online,  
deploy to all.

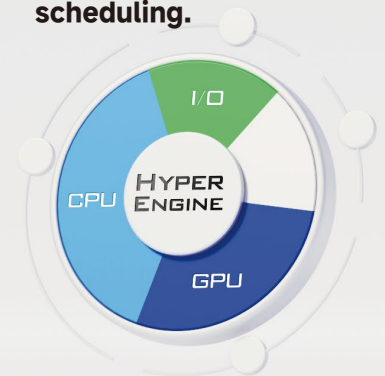

One set of  
SDKs.

Use your ID  
as your account.

Hyper Engine  
for quick resource  
scheduling.

Tighter user privacy  
and data security.

Multiple print specs  
supported.

A fresh new look.

## Enhanced adaptability.

Save users from complicated integration and adaptation, just for convenient device experience.

### One set of SDKs.

Leveraging the platformized SUNMI OS 4.0, SUNMI offers unified methods for using different hardware. Only simple provisioning is required.

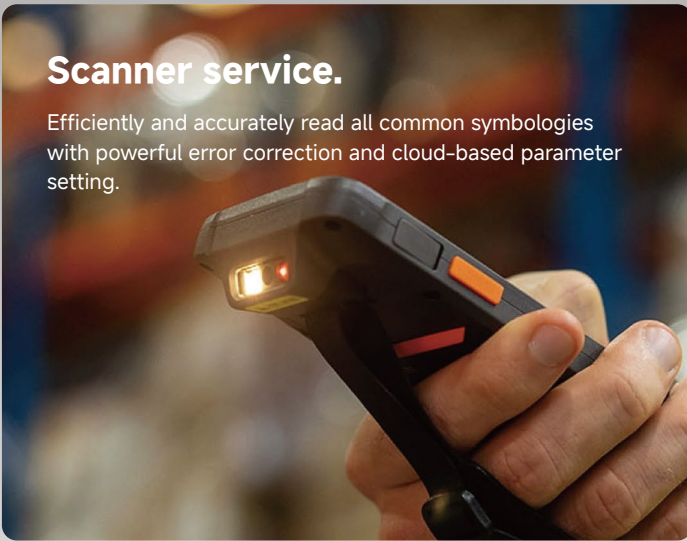

### Printer service.

Multiple connection methods available. Compatible to all characters. Monitorable printing results.

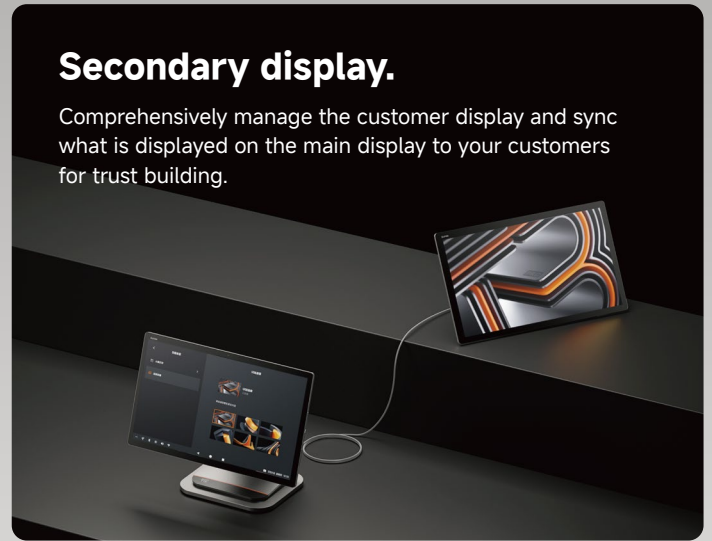

### Scanner service.

Efficiently and accurately read all common symbologies with powerful error correction and cloud-based parameter setting.

### Secondary display.

Comprehensively manage the customer display and sync what is displayed on the main display to your customers for trust building.

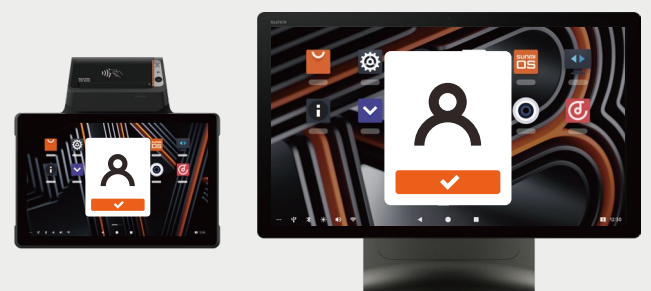

### AI recognition-powered usability.

SUNMI devices have been greatly improved in usability thanks to AI technologies applied to the recognition of multiple documents, items with or without labels, etc.

### Use your ID as your account.

Access SUNMI cloud and terminal services in an easy, convenient and secure way. Biometric ID also is available.

# SUNMI DMP

SUNMI Device Management Platform

Global Cloud

Local Cloud

Private Cloud

## Features

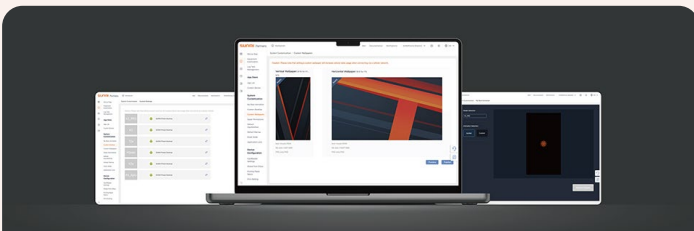

### Remote Assistance

Reimagine your aftersales service: quickly find and solve device problems with no geographic restrictions. Compatible with all types of SUNMI devices.

### Private Cloud Deployment

Deployed to customer specified servers, TMS is a device management system built for the finance, logistics and healthcare industries, and many more.

### Brand Customization

Release customized boot animations, wallpapers and home screen apps to your devices to create your brand voice.

### App Distribution

Make your apps quickly available to millions of devices with this top-notch app store for business.

## Global network topology. Quick, stable and secure.

### Dynamic Acceleration Via CDN

Provide quick and stable network access worldwide with CDN acceleration and optimized edge nodes by fetching contents from a nearby edge through smart dispatch.

### Dynamic Capacity Expansion

We adopt a scalable architecture to support dynamic capacity expansion, supporting tens of millions active devices everyday.

### Classified Information Protection

Level 2 information protection to secure important information, resources and systems.

# SUNMI App Store

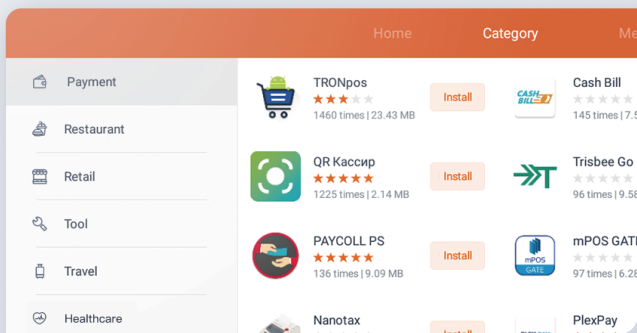

Secured, Flexible and Economical. Publish your apps and build your customized App Store.

## Access to a Wide Range of Industry Based Apps

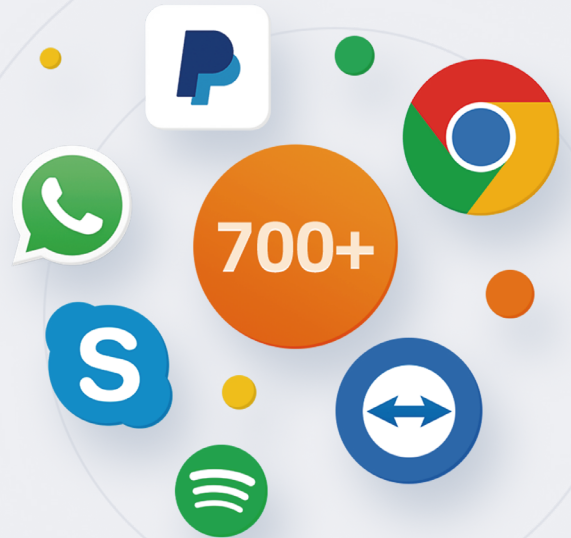

Developers around the world have worked hard to provide Apps needed in doing every business. Up to now, 11 industries including retail, restaurant and payment have been covered.

<b>2700+</b> Retail	<b>2500+</b> Restaurant	<b>2200+</b> Payment	<b>660+</b> Life Services
<b>470+</b> Transportation	<b>440+</b> Tourism	<b>140+</b> Healthcare

# Grow a stronger business with SUNMI and our partners.

BCA: Indonesia's No.1 commercial bank.

"SUNMI's well-designed and highly compatible products, as well as the customer support SUNMI has offered helped us promote the trending self-service banking."

—A BCA employee

#### SUNMI Products Used

SUNMI T Series

#### Applications

Self-service banking.

#### Value

Improved service efficiency and saved wait times.

Caspit: An Israeli well-known POS software vendor and POS agent.

"Featuring powerful performance, fast printing and high cost effectiveness, SUNMI T2 MINI works best for small sized stores. We are very willing to work with SUNMI to bring local merchants high-efficient store operations."

—A manager, Caspit

**SUNMI Product Used**

SUNMI T2 MINI

**Applications**

Restaurant & retail checkout.

**Value**

A checkout solution integrating QR code payment and receipt printing for restaurateurs and retail business owners.

SHOPPING MALL (MYANMAR) Co., Ltd is a well-known supermarket chain in Myanmar.

"Customers are more satisfied in their daily shopping especially when they are busy. The self-service weighing and checkout cut their waiting time, improve store efficiency and reduce labor costs."

—A manager,  
SHOPPING MALL (MYANMAR) Co., Ltd

**SUNMI Products Used**

SUNMI S2, SUNMI T Series

**Applications**

Self-weighing and checkout, transaction management and membership management.

**Value**

Driven by the self-weighing, customer shopping experience has been improved.

KINSHO Sushi, a sushi train restaurant established in 2018.

"Eating here is quick and fun, even during peak holiday hours. We can get a queue number, wait a while, order tableside on a tablet, and get sushi served on a mini train. My kids also love eating here."

—A guest of KINSHO Sushi

#### SUNMI Product Used

SUNMI D2s KDS, SUNMI P2, SUNMI V2, SUNMI T Series

#### Applications

Queue management, KDS, online order receiving & receipt printing, mobile checkout, supply chain management.

#### Value

Higher customer satisfaction and easy inventory management.

## bosie

A rising neutral fashion brand.

"Traditionally, brick and mortar stores use desktop POS terminals, card readers, mobile terminals and printers among other hardware, making installation a messy work. While SUNMI and Burgeon's digital solution, tailored for our industry, features out-of-the-box usability and is easy to deploy. Now store managers can check data reports anytime and anywhere. Pretty convenient."

— bosie tech team

#### SUNMI Product Used

SUNMI D2 MINI, SUNMI V2 PRO

#### Applications

Checkout, mobile payment, QR code based item lookup, ordering, and item management, etc.

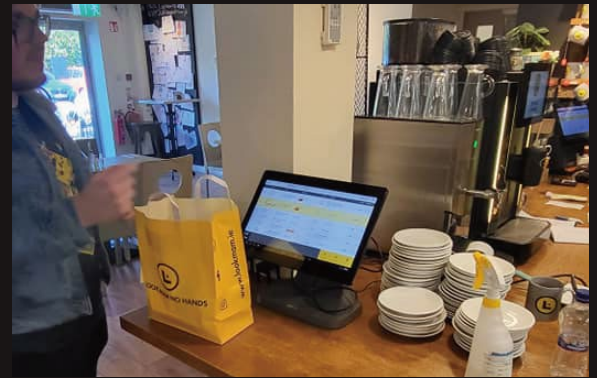

#### Value

Improved customer experience thanks to mobile checkout and inventory lookup.

# Empower offline businesses with co-developed digital solutions.

QR code payment & display advertisement, SUNMI T Series, NetEase Yeation, China.

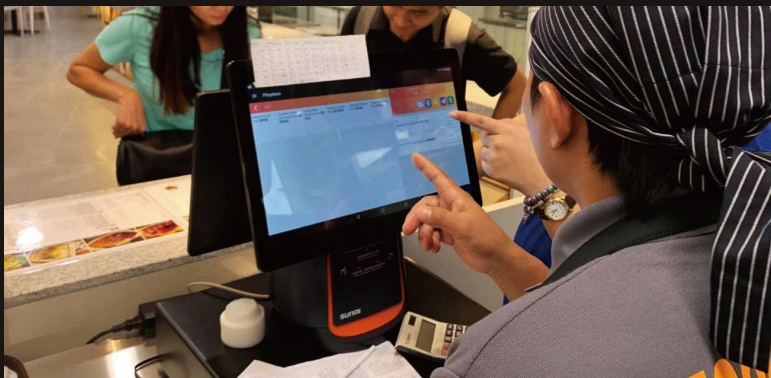

Incorporate online orders, in-store and online payments, SUNMI T Series, Look Mam No Hands Cafe & Restaurants, Finland.
